New Purchases, Market Analysis, and a Limited Special Offer

Dear Daniel,

We have just returned from the Central States Coin Convention, and we had a great show! If you had the chance to stop by our table you saw firsthand that we were very busy, both buying and selling. I can hardly count how many times I was looking at two or three people's coins at the same time. Sales were all over the map, selling many gold coins, including a nice high relief, and a lot of better and common date twenties.

We had some good sales in the seated department, and our Gem 1861-O is now gone, as well as the beautiful 1796 quarter we had in VF20. We made sales on large cents, several Colonial coins, and quite a few Morgan dollars. Buying was even better where we stacked up purchase invoices from other dealers, as well as the public. One dealer even told me we were in "uncharted territory". When I asked what he meant, he said we had gone to page two, because I had purchased so many coins!

We were also able to capitalize on some coins from the big auction held in conjunction with the show. Look for some Collection Centerpieces to be up on the website soon. Central States is one of the top shows in the country, and the Milwaukee location seems to be a good one. When it was all said and done my Staff and I were exhausted from all of the hard work and effort put forth. My thanks to the HLRC staff for a great show!

So there you have it... lots of new coins will be posted this week and next, and 2 BIG Shows coming up in June with the Long Beach Expo, June 3-5, Table # 817, and the Baltimore Coin and Currency Convention, June 17-20, Table # 354 & 355!

Thanks, and enjoy some of our new purchases displayed here!

The Market

The market was hot the entire show, as gold continued to creep up, setting an exciting backdrop. We feel the market continues to get stronger, but still feel many prices are soft, or lower than many of the peaks. This is creating tremendous opportunity for knowledgeable buyers to add to their collections. We also believe that with the stock, and real estate markets somewhat out of favor, many are looking for alternatives.

Collecting and Investing in Coins is fun, and often quite profitable, if you are buying the right quality of coins. Between the demands for CAC certified coins, and the new PCGS Secure Plus product, many buyers are going up the quality ladder, and trading out their lower end holdings. Smart move in my book, as these rare, better quality coins, are the ones to hold.

We are always in the market to purchase new coins, and we are eager to purchase PCGS Secure and Secure Plus holders!

PCGS Secure Plus Grading Offer

PCGS Secure Plus grading is only being offered on 5 day express, 2 day walk through, and show service. The retail charge for the 5 day tier is \$65, and Walk through is \$125. PCGS is still ramping up into this product, and they are not offering the less expensive tiers. We know these prices are strong for grading, and we want to help, so for a limited time **we are offering to pay 20% of your grading fees for 5 coins or more, and 25% for 20 coins or more on the 5 day tiers.** This includes PCGS Secure Plus grading, and the regular 5 day express tier, where retail price is \$45. If you

have walk thru coins we can discuss possible assistance here as well! This is a no strings attached offer, though we would like a chance to purchase some or all of the coins you submit, if any are for sale. You are under no obligation. We do ship everything overnight, and you are responsible for all shipping and handling charges. Shipping overnight speeds up the process by up to two weeks, so it is well worth a little extra postage. If you have any submission questions, we will be glad to answer them at the office.
