NGC PLUS, Long Beach, CC Dollar Deal & New Purchases

Dear Customer,

We are back from a two-day buying mission in Nashville and it was very productive for us. The city had just been hit by a devastating flood, and though it showed little signs of damage in the area of the convention center, the attendance was lackluster. This, however, made it easy for us to get to the tables and do some business. We have heard rumors that the show will not repeat which would be unfortunate. Coin shows in general, like many other businesses, are struggling to find their niche in an already crowded market. Many small weekend shows that are more accessible for less money dot the landscape and decrease the importance of the bigger shows. The mid America show held in the suburbs of Chicago this June has been canceled and may not reappear. Major shows like Summer ANA, Baltimore, and FUN will certainly remain popular and well attended but those shows in the middle are struggling for attention.

Our business has grown to national prominence on our willingness to attend these major conventions and mix it up with dealers and collectors all over the country. In addition, many auctions have been a valuable source of material as well as information that gives us insight into current trends in the marketplace. To attend shows with staff requires the ability to do many things at once including large volumes of both buying and selling. We do not believe this will change and to be on the cutting edge of high quality numismatics we believe we must attend the vast majority of these events. We may rethink our schedule a bit here and there, and in some cases, we may be gone by close of business Friday instead of staying at every venue until Saturday afternoon. Regardless, we fully expect to have a major presence at every important national and regional show within our capacity.

Check our schedule carefully for the exact days we will be attending and whether we will be carrying our full inventory or just selections. If you see a coin on the list right before a show call us and if practical, we will reserve that item for your viewing pleasure and

possible purchase at the show. We will be in California next week attending the Long Beach Show at booth 817. We will only be staying through close of business Friday so if you want to see us do not wait until Saturday. We will have a strong inventory at the show with many great coins due to recent fortuitous purchases. Please view our website today for one of the nicest group of rare and choice coins found on any private list.

Thanks,

Harry

NGC PLUS & STAR Designations

NGC is now using two important symbols that are appearing after the numerical grade in order to describe a coin in greater detail. They are the + plus and the * star. NGC assigns a + to coins at the high end of their assigned grade, these coins must have above-average eye appeal. The + is synonymous with PQ. Only U.S. coins from 1792 to 1964 and graded NGC XF 45 to MS 68 or PF 45 to PF68

1801 \$10 PCGS AU58 CAC

1865 \$5 PCGS PR53

1924 \$20 PCGS MS65+ Secure with Plus

1927 \$2.50 PCGS MS65 CAC

1931-S 5C PCGS MS66 CAC Secure

may receive a +. Coins are automatically evaluated for + during grading when submitted under the Economy, Early Bird, Gold Rush, Specialty Gold, Express and WalkThrough Tiers.

NGC is assigning a star only to U.S. coins in its normal course of grading with exceptional eye appeal for their assigned grade. Exceptional eye appeal may include attributes such as vibrant, colorful toning, intense luster, or, in the case of Proof coins, especially strong cameo contrast. Star coins must be free of any obvious planchet irregularities, and display no bothersome spots or blemishes. Toned coins can be of a single color or multicolored but cannot have any areas that are dark brown, approaching black. Star designated coins can fall anywhere within the grades to which they are assigned except any coins graded MS 70 or PF 70. Coins already certified by NGC can be resubmitted and reviewed for the star using the Designation Review Service, the fee for which is \$10.

More information about this new Designation service by NGC can be found on their website [click here](#) to visit.
