## VARIETY PREMIUM COINS

INV NO	COIN NO	B D	DATE	VARIETY	DENOM	GRADE	SVC	DESCRIPTION	REG PRICE
94222	1087	1805		C-2, B-2, R-5+.	1/2 C	F12	PCGS	Small 5, Stems. The color is an even medium brown. Surface quality is average or better with a couple of minor nicks expected on a circulated coin. Rare and desirable in all grades, especially so on such a smooth planchet.	\$15,000.00
94643	1392	1796		S-117, R-5+	1C	FR02	PCGS	Rare variety and reverse of 1797. For some reason this variety is seldom found wholesome and on smooth copper as here. The date and Liberty's head are clear, along with the wreath and portions of the reverse legend.	\$950.00
94627	1392	1796		S-114, R-5	1C	G 04	PCGS	Reverse of 1797. This variety is nearly impossible to find certified. Even brown on a smooth planchet and attractive for a well circulated coin. Two moderate nicks are hidden on the left branch of the wreath. APR 1/08 of 5,463 for a 12 coin.	\$1,550.00
94625	1392	1796		S-83, R-4	1C	G 06	PCGS	A scarce Liberty Cap variety that shows attractive surfaces and just a hint of microscopic granularity in the fields. Smooth on the devices and these Liberty Caps are hard to find so wholesome and problem free.	\$1,500.00
90765	1449	1800		S-199, R-4	1C	F12	PCGS	S-199, R-4 - Very pleasant surfaces and color. Much better die marriage. Super smooth and very nice for the grade.	\$1,650.00
93124	1449	1800		S-205, R-4	1C	F15	PCGS	S-205, R-4 - Smooth surfaces and nice color. Scarcer die marriage, likely in the top 20 for this issue. Still desirable as a date carrying only a small premium at this level.	\$875.00
94038	1472	1802			1C	VF25	PCGS	Late die state with full cud over ATE. Medium to dark brown with decent surfaces. Scarce and popular die state for the collector who appreciates these scarce terminal die states.	\$1,250.00
95038	1504	1804		S-266c, R-2.	1C	F15	PCGS	S-266 - With full obverse and reverse cuds and nice chocolate color with glossy surface. Very appealing overall for this important year in large cents and the popular late die state.	\$7,850.00
86538	4258	1797		LM-4, 13 ST.	H10C	F15	NGC	LM-4, 13 Stars - Though we have run into a small patch of these they really are quite scarce. This one is quite nice with fully original patina and enough meat to be a solid 15!	\$6,500.00
94056	5310	1796		B-2B, R-3	25C	VG 8	PCGS	Silver centers framed in blue and rose toning in the fields. Desirable late die state with mutiple complex cracks through ERTY and the nearby star. A couple of minor ticks near the eagle's head, but these blend into the surfaces. Rare.	\$22,500.00
95595	5314	1806		B-4, R-4.	25C	VG10	PCGS	B-4, R-4. (VP). Medium gray and attractive for this scarce variety. Usual reverse strike. From the Jules Reiver collection, Die State II+.	\$1,500.00

INV NO	COIN NO	B D	DATE	VARIETY	DENOM	GRADE	SVC	DESCRIPTION	REG PRICE
94065	5322	1818	B-9, R-4	25C	G 6	NGC	A rare die variety and this is the early die state before the arrows clashed above Liberty's head, but with the thick crack through (U)N to the wing. A few minor scuffs and nicks from circulation, but solid color and rare.	\$1,250.00	
94066	5331	1821	B-5, R-4	25C	F12	PCGS	(VP) This scarce variety is seldom offered--the last one at Heritage was Reiver's in 1/06--that cleaned and scratched. This one is quite wholesome with light gray fields, silver devices and gunmetal blue around the edge. So nice.	\$875.00	
93823	6051	1794	O-110, R-7+	50C	G04	PCGS	Only 5-6 coins known of this rare variety and rare die state. Pleasing for the grade with a massive break across the reverse. Ex Jules Reiver and discovery coin for the variety. A centerpiece for the die variety specialist.	\$30,000.00	
93357	6051	1794	O-107, R-6	50C	VG08	PCGS	Extremely rare variety, Dusky gray fields with a shade lighter on the devices. Perhaps 20-25 known, finest reported is a VF25. APR for an NGC 20 at \$25300 for this variety 1/08. Another PCGS VG-8 at 12.650 2/07. Rare and important.	\$13,500.00	
92396	6052	1795	O-113, R-3	50C	F12	PCGS	A over E in STATES. Light gray with russet accents around the rims and devices. Appealing and scarce, these spelling blunders are a delight and bring out some of the charm of early hand engraved dies.	\$3,250.00	
92393	6052	1795	O-105, R-3+	50C	F12	PCGS	Dark gray fields, lighter devices. Pleasing surfaces. Middle die state with faint cracks to Bust, B and Stars--not quite the "a" state yet. A solid type coin and interesting variety with the (A)M recut left.	\$2,750.00	
93774	6052	1795	O-127, R-6+	50C	F15		Small Head - This important coin is the Condition Census for the variety. The color is absolutely ideal and the assigned grade conservative. A regrade to vf20 would not surprise me. Almost never offered on any private list.>>>	\$15,750.00	
94877	6052	1795	O-114, R-6+	50C	G06	PCGS	2 Leaves. A very tough R-6 variety to find in ANY grade. This one has gray toning with patches of charcoal on the obverse, lighter on the reverse. Thin hairline scratches are visible with effort but expected for a well circulated coin.	\$4,800.00	
92403	6052	1795	O-129, R.5	50C	VF20	PCGS	S/D Reverse. Traces of adjustments in the left obverse field and rim, nearly obliterated by strike. Blue and russet around the rims, silver centers. Well struck, rare and seldom found this nice. This variety mentioned in the Notes in the Guide Book.	\$4,500.00	
93771	6052	1795	O-106, R-6	50C	VF25	NGC	This attractive example is the second finest with the best coin having resided in the same collection since 1970. Reiver pedigree from 2006. Don't miss the chance to acquire a very important bust half dollar of this rare die pairing.	\$16,500.00	
99518	6052	1795	O-123, R-7.	50C	VF35	NGC	Second finest known of just 9 survivors from these dies. Beautiful steel gray color with lighter silver devices and solid hair definition. Clean surfaces and no adjustment marks impair the rims or devices. A fantastic example of this rarity. The VG-10	\$31,500.00	

INV NO	COIN NO	B D	DATE	VARIETY	DENOM	GRADE	SVC	DESCRIPTION	REG PRICE
94869	6052		1795	O-106, R-6	50C	VG10	PCGS	A decidedly rare variety that is seldom available in any grade. Gray-gold to light silver in color and pleasing. There are minor adjustment marks between stars 11 and 12 which blend into the field and lightly appear in Liberty's hair near her ear.	
92394	6052		1795	O-110a, R.3	50C	VG8	PCGS	Medium to dark gray and wholesome. Parallel arcing die cracks through TY and stars below, scarce die state matching the 1796 quarter and others--a great collection to form. Minor reverse adjustments on the rim. A die state delight.	\$2,500.00
92402	6053		1795	O-128, R.5+	50C	F12	PCGS	Small Head. Concition Census #4 for the variety just behind 2 F15 coins. Beautiful gunmetal blue toning, minor adjustment marks left obverse rim, smooth and pleasing surfaces. We believe Small Heads are underrated and a distinct type coin.	\$6,500.00
92313	6053		1795	O-129, R-5	50C	F12	PCGS	S/D reverse and noted on the insert. PCGS has grade only 2 with the variety noted, not many more in generic holders. A scarce offering. Classic medium steel gray with attractive surfaces, boldly clashed dies.	
94217	6053		1795	O-126, R-4	50C	F15	PCGS	Small Head. Medium silver gray with nice surfaces. These Small Heads are seldom found in high grades, and they are far more artistic in execution than the regular 1795 head punch for Liberty. A scarce item indeed.	\$7,500.00
92399	6053		1795	O-126, R.4+	50C	VF DET	NCS	The surfaces are rough with patches of corrosion and were cleaned long ago. Medium gray with darker gray around the rims. A rare high grade example of the coveted Small Head which is seldom found in grades above VG, when found at all!	\$3,750.00
95508	6053		1795	O-111, R-4+	50C	VF20	PCGS	CAC Approved. Double Date, Three Leaves Reverse. A rare coin in all grades and this one drips with originality. Russet and blue toning accents the devices, better than average surfaces too. The supply of these has really dried up and APRs are up.	\$12,000.00
94889	6053		1795	O-128, R-5+	50C	VG08	PCGS	Small Head. Light golden gray with traces of adjustment marks in the obverse fields, nearly obliterated by the force of the strike. There are faint hairlines on the reverse and a dull scratch on the eagle's chest. Another desirable Small Head.	\$5,000.00
92326	6053		1795	SMALL HEAD	50C	VG10	PCGS	O-126, R-4+. Medium silver gray color, decent surfaces and eye appeal. These Small Head halves are quite scarce don't turn up in high grades. Clearly more important as a major type than the 3 Leaves variety.	\$4,500.00
92401	6053		1795	O-128, R.5+	50C	VG10	PCGS	Small Head. A pleasing coin with deep gray fields, lighter cameo devices. Smooth surfaces throughout and problem free for this rare and distinct type. Highly recommended.	\$6,250.00
94888	6053		1795	O-127, R-6+	50C	VG10	PCGS	Small Head. Early Die State, no trace of the crack from star 9 to nose. Medium to light gray with smooth wear. Faint obverse adjustment marks near the rims. Herrman notes 13-15 known and this is the earliest die state reported.	\$10,000.00

INV NO	COIN NO	B D	DATE	VARIETY	DENOM	GRADE	SVC	DESCRIPTION	REG PRICE
92405	6069	1805	O-113b, R.4+	50C	VF20	PCGS	Probably R-7+ die state with a retained cud now forming above MERI and bold clashing in all fields. Nice original gunmetal gray fields, lighter silver devices. Decent surfaces and undergraded, note the hair. An opportunity!	\$2,000.00	
93476	6069	1805	O-107, R-5	50C	XF40	PCGS	O-107, R-4+ - A very tough variety and likely a condition census example (top 6). Attractive patina with smooth hard surfaces. A nice coin overall for the advanced collector.	\$3,500.00	
92410	6071	1806	O-117A, R-5	50C	VF20	PCGS	Pointed 6, Stems. Late die state on the left obverse, thick cracks through the first few stars and bluntly struck along the back of Liberty's head as always found. Gray with golden accents and traces of luster. Clean surfaces, appealing and scarce.	\$2,250.00	
92406	6077	1806/5	O-104b, R.5	50C	F15	NGC	Terminal die state with two reverse cuds above UNITED, heavy crack and retained cud at star 11 to bust. Medium gray and pleasing surfaces, reverse adjustment marks. Perhaps 4-8 are known of this die state. Ex Reiver-DeOlden.	\$4,750.00	
94078	6077	1806/5	O-104a, R-5	50C	G 06	PCGS	Very close to the terminal "b" die state with the cud over UN present and a retained cud touching star 11 on the obverse, and cracked above TE. Medium gray with darker accents near the devices.	\$750.00	
89809	6078	1806/6	O-112, R-4.	50C	XF40	NGC	Scarce bust half overdate with full die breaks running through the head and at 3 o'clock - nice original color. Recent APR 40 at 4313 and NGC 45 at 5750. CAC Approved	\$5,250.00	
92995	6086	1807	O-113, R-2.	50C	VF30	PCGS	Small Stars. Scarce and desirable. Coin defies the holder grade, very PQ quality, medium gray with lighter silver on the worn areas. The small stars variety was used one time on this die by John Reich, thus an important Guide Book coin.	\$3,500.00	
93688	6086	1807	SM. STARS	50C	XF40	PCGS	The noteworthy first year turban with small stars. A real prize among bust nuts and this one is so original it hurts. I'm liking it even more as I view it now. Au50 APR @ 6900. CAC Approved	\$4,400.00	
93437	6090	1808	O-104A, R-5	50C	VF35	PCGS	O-104A, R-5. A tough late die state to find in any grade. Classic steel gray color with excellent surfaces. Stars and lettering strongly drawn to the rim, die crack through the reverse legend. Recognized as a rare die state by Steve Herrman.	\$750.00	
95037	6103	1813	O-101, R-2.	50C	MS63	NGC	Scarce Redbook type coin with interesting UNI engraving error, then corrected with 50 C., sharp details and clean. Natural intense luster under a slightly mottled attractive toning. APRs in the 4-6 range.	\$5,250.00	
94218	6144	1827	O-145, R-5	50C	VF30	NGC	Dark charcoal gray in the fields, lighter on the devices for this rare die pairing. A couple of faint scrapes are hidden by Liberty's curls, but the surfaces remain pleasing. Well struck and impressive for this tough R-5 marriage.	\$1,350.00	
87809	6463	1892-O	MICRO O	50C	MS62	NGC	Ten mint state coins at both services combined. This is the rarest of all the Barber half dollars. Long considered a part of the complete set, the 92-0 is a hotly sought rarity and this is the first mint state we have listed for public sale.>>>	\$40,000.00	

INV NO	COIN NO	B D	DATE	VARIETY	DENOM	GRADE	SVC	DESCRIPTION	REG PRICE
94934	6852		1795	B-12a, BB-26	SS1	VF25	NGC	R-5. 3 Lvs. Scarce variety in late die state with the crack up through the 7 and the die lump attached. Seldom offered on any list. A true specialist coin. Natural edge planchet flaw on the left side by stars3-4, traces on rev at ED.Original!	\$12,500.00
92291	6852		1795	B-11. BB-12, R-7	SS1	VF35	PCGS	Bolender plate coin rev. 7 or 8 known of this variety. Delicate golden silver as always on this die pair. Well struck, clean surfaces and attractive in every way. Variety noted on PCGS insert. Ex Earle, Bolender, Osterimer-others.	\$50,000.00
95040	6852		1795	BB-26,B12,R-5	SS1	VF35	PCGS	Flowing Hair, Three Leaves. A rare variety, early die state with the usual crack up through the 7 to Liberty's bust light. Medium gunmetal gray fields, lighter silver devices, just right and pleasing. A nearly identical example sold for \$25,300 at	\$22,500.00
94071	6852		1795	B-12, BB-26, R5	SS1	XF DET	NCS	A very tough R-5+ Very few seen with this much detail. Though cleaned the eye appeal is acceptable.	\$12,500.00
93979	6900		1803	B-3, BB256, R6	SS1	F12	PCGS	. Attractive golden-russet hues cover the obverse and reverse of this rare die pairing. A sprinkling of blue and russet surround the rims and hints of luster are found in the lettering. There are perhaps 20-30 known of this die pairing>>>	\$2,850.00
93830	7697		1838-C	WB-103, R-7	2.5	AU58	NGC	WB-103, R-7 - A very elusive c mint issue. This one is sharply struck and has a minimum of marks for the grade. Only about 10 ms coins at both services and many of those likely duplicates. Great collector branch mint 2 1/2!	\$17,500.00
